Summary

Full Stack Developer (MERN) with experience building and deploying 10+ scalable web apps. Skilled in developing high-performance UIs, secure APIs, and real-time systems. Applying Machine Learning to build intelligent, user-centric features.

Experience

SDE Intern

Tienext

Remote

June 2025 – Aug 2025

- Built a centralized RBAC admin panel using **Next.js**, **Tailwind CSS**, and **TypeScript**.
- Incorporated it across 3+ modules, reducing code duplication by 30% and standardizing access control.
- Developed middleware for route protection using **JWT** and **Zod** to ensure secure, scalable access.

Projects

FINANCY – Smart Trading & Investment Platform

[GitHub](#)

- Engineered a full-stack investment platform for users to analyze, **buy, and sell stocks** with a seamless user experience.
- Crafted an interactive, responsive UI for real-time trading insights, supporting both desktop and mobile devices.
- Implemented secure **authentication**, portfolio tracking, and dynamic data visualization using **Chart.js** and the **MERN** stack.

VIDEOMEET – Real-Time Video Conferencing App

[GitHub](#)

- Built a video conferencing app with calls, screen sharing, and messaging using **React**, **TypeScript**, and **WebRTC**.
- Enabled real-time, low-latency communication via **WebSockets** for seamless user interaction.
- Integrated **JWT** authentication, meeting scheduling, and deployed the app on Railway for public use.

NEST FINDER – Airbnb-Inspired Rental Platform

[GitHub](#)

- Built a full-stack rental app for listing, booking, and property management using **MERN** stack and **EJS** templates.
- Designed a responsive UI for smooth performance across desktop and mobile.
- Merged authentication, booking flow, and payment system with **Passport.js** and **Express APIs**.

COMMIT CONTROL – Custom Version Control System

[GitHub](#)

- Built a custom Version Control System with repository management and commit tracking using MERN stack.
- Used **Yargs** to create terminal commands for **init**, **commit**, and history tracking.
- Added branching, commit visualization, and file tracking to improve workflow clarity.

Skills

Languages:	JavaScript, TypeScript, Java, Python, C, HTML, CSS
Frameworks & Libraries:	React, Next.js, Node.js, Express.js, Bootstrap
Databases:	MongoDB, NoSQL
Tools & Platforms:	Git, GitHub, VS Code, Vercel, Render
Other Technologies:	WebRTC, Socket.io

Education

RCC Institute of Information Technology

Aug 2023 – Jul 2027

B.Tech in Computer Science and Engineering

GPA: 7.84/10

- **Coursework:** Data Structures and Algorithms, Operating Systems, DBMS, Computer Networks, Machine Learning, Object-Oriented Programming

Certifications

Introduction to Cyber Security - Cisco

May 2024

Networking Basics – Cisco

Mar 2025
